Today's Topics

Transitional Work Programs

The Benefits

Transitional Job Tasks

Steps to Blueprint

Partnering with ICW Group

Resources

Transitional Work Programs

TWP vs. RTW?

Transitional Work Program:

- PROACTIVE - In place BEFORE injuries occur.
- Tasks, requirements and processes established prior to an injury.
- Ready to invoke when needed.

Return to Work Program:

- REACTIVE - Activated AFTER an injury occurs.

What is a Transitional Work Program?

Designed to have action in place.

- Tailored to fit needs.
- Transitions injured worker back to full duty.
- We're including a TWP plan as part of this webinar!

The Benefits

The Benefits - Financial

Reduces direct costs:

- Medical & indemnity costs.
- Associated claims costs (mileage, prescriptions, etc.).

Reduces indirect costs:

- Range from 1 to 20 times more than direct costs.

The Benefits - Financial

Reduces Time Lost

- After 12 weeks off job following injury:
 - ~ **50%** of workers don't return!
- After 1 year, likelihood decreases to **< 2%**

The Benefits - Financial

Impacts Ex-Mod

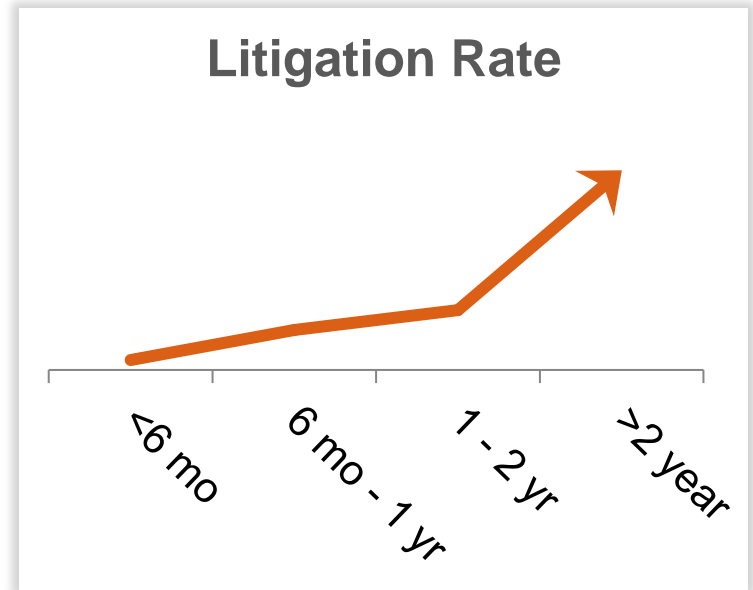

- Fewer & less costly claims reduces Ex-mod impact.
- Based on 3 years of loss experience.
- Current policy year and previous policy year isn't included in calculation.

The Benefits - Financial

Reduces Litigation

- Focus on worker **ability** vs. worker disability.
- Faster claims close, less likely litigation.

The Benefits - Financial

Reduces Disability Expense

- Studies show reduced length and cost of disability.
- Accommodations cost little or nothing - low priority, important tasks that need to be done.
- Develop an ability vs disability approach.

The Benefits - Financial

Maximum Medical Improvement Faster

- Workers return to regular duty faster.
- Can attain maximum medical recovery...

3x faster!

The Benefits - Employee

Employee feels needed and wanted

- Part of essential team – “we’re in this together!”
- Promotes faster recovery time.
- Reduces concerns about losing job.
- Provides income stability – still earning a paycheck.
- Employee feels **valued and useful!**

The Benefits - Employee

Faster Recovery Time

- Ability vs. disability environment – each day in recovery employee can do a little more.
- Continued activity and motion.
- Incentive to return to normal work – we need you back in your job with your team.

The Benefits - Employee

Focuses on “**Can Do**” vs. “Can’t Do”

Can Do: Ability environment

- Can be productive!
- Can interact with friends and co-workers.
- Can monitor adherence to restrictions.

Can't do: Disability environment

- Can't do same job
- Feels worthless.
- Promotes negative environment.
- Concerned of what others think.
- Fear of losing job.

The Benefits - Organization

Demonstrates Compassion

Being injured is hard on employees! TWP provides a supportive environment...

- Shows commitment to workers.
- Improves corporate culture.
- Pays off in reduced litigation.

Litigation drives expense in CA workers compensation!

The Benefits - Organization

Deters Fraud & Litigation

WC benefits likely just medical:

- Reduced settlements.
- Reduced disability.
- Injured employees at work instead of home watching Attorney TV Commercials!

The Benefits - Organization

- **Lowers insurance costs**
- Reduces re-injury potential
- Maintains productivity
- Decreases fraud potential
- Reduces litigation costs
- Long-term - lowers Ex-mod!
- **Promotes healing process**
- Increases sense of job security
- **Boosts employee morale**
- Improves labor relations
- Management involved
- Good business sense
- And more!

Optional Job Tasks

Transitional Job Task Examples for TWP

Identify Transitional Job Tasks

Do this BEFORE employee is injured.

- **Question** – What tasks need to be done but aren't being done because they're low priority?
- **Question** – If you had a free, extra employee, what tasks would you have them do?

Transitional Job Task Examples

- Parts inventory
- Facility inspection
- Maintenance
- Filing
- Assist dispatch
- Update safety manuals
- Work for employer's charity

Transitional Job Tasks

Example 1

Commercial laundry operation uses hundreds of rolling bins to move laundry. Over time, the wheels get clogged with debris making it harder to move the bins. Cleaning the debris from the wheels needs to be done but it is a low priority.

Maintenance can flip bins over so injured worker can remove debris and lube wheels while seated.

Transitional Job Tasks

Example 2

Commercial laundry operation launders uniforms for hospitality industry. Uniforms get broken buttons and loose threads, detracting from customer satisfaction.

- Injured worker can sit at table, trim loose threads, replace worn or missing buttons.
- Customer satisfaction increases.

Transitional Job Tasks

Example 3

Convalescent hospital's patients with long fingernails and toenails can cause injuries to themselves and staff, and do damage to bedding.

- Trimming finger and toenails is necessary but low priority.
- Injured worker can sit to trim fingernails and toenails – less scratch injuries and less damaged bedding.

A photograph of three construction professionals—two men and one woman—wearing hard hats and reviewing architectural blueprints on a construction site. The scene is set outdoors with a bright sun in the background, creating a warm, golden glow. The image is partially overlaid with a semi-transparent blue filter on the left side. The text 'Your TWP Blueprint' is prominently displayed in white on the blue overlay.

Your TWP Blueprint

Step 1 – Executive Support & Direction

- Provide positive work environment – Ability vs Disability.
- Emphasize employees are valued and needed.
- Early / ongoing communications to management, employees, clinic & ICW Group.
- Identify transitional work tasks prior to injury.
- Deliver strong commitment & leadership.

Step 2 – HR Coordinates the TWP

- Works with ICW Group Risk Manager to tailor your program.
- Communicates / coordinates with clinic.
- Works with management to insure TWP tasks lists completed and updated as needed.

Step 3 – Managers Create TWP Task List

- Identifies transitional tasks before injury.
- Works with Human Resources on task lists
- **Question** – What tasks need to be done but aren't being done due to low priority?
- **Question** – If you had a free, extra employee, what tasks would you have them do?

Step 4 – Employee Involvement

- When TWP is launched, employees informed and provided copies.
- TWP is part of new hire process.
- From beginning, employees understand they're needed and valued by company.

Step 5 – Enlist the Clinic in the TWP

- HR and senior management meet with clinic director on program to gain support.
- Invite director of clinic to visit facility and explain how transitional work tasks will be combined to create meaningful work for injured employees.
- Emphasize injured employee's **abilities** – not disabilities.

A woman in a grey blazer is shaking hands with a man in a blue shirt. They are both smiling. In the background, other people are visible, including a woman in a dark blue shirt and a man in a white shirt. The scene is set in a modern office environment with large windows.

Partnering with ICW Group

ICW Group's TWP Program Package

ICW Group's TWP Program Package

TWP Letter to Employee

- Provide to employee if injured.
- Explains what to take to physician.

**Letter to Employee
Transitional Work Assignment**

Enter Today's Date

Dear Enter Employee's Name,

We are sorry to hear that you had an on-the-job injury that may require medical attention and/or involve time away from work. We want to do everything possible to assist in your recovery and speed your return to productive employment.

We can provide better support and process your benefits much faster, if you follow the Transitional Work Program procedures outlined below. Contact your manager for more information about our company's Transitional Work Program, and a list of medical providers in your area.

1. Take the attached "Transitional Work Task List" with you to your next scheduled medical exam.
2. Ask your physician to review the materials and initial the Transitional Work Task List approving your fitness for a transitional work assignment.
3. If you are released to return to work the same day, provide management with a completed Work Release form when you return.
4. If you are unable to perform your regular job duties, a Transitional Work Assignment (TWA) will be offered whenever possible. Your physician will evaluate the available tasks to determine whether it's medically appropriate to return you to transitional duty work.
5. If you are unable to return to work for your next scheduled shift, immediately call and notify your supervisor, or a member of management.

Have a speedy recovery. We need you, and we look forward to having you back at work!

Regards,

<Insert Company Name>
Notice of Transitional Work Assignment

Employee: **Enter Employee's Name** Date of Injury: **Enter Date of Injury**

We have received information from your treating physician that you have been released to participate in our company's Transitional Work Program. Through this program, we are able to provide you with a Transitional Work Assignment (TWA) while you recover from your injury.

The work activities we have chosen for you are within your physical restrictions, outlined in the attached work release. If you are assigned a task you consider to be beyond your physical capabilities, please let your manager, or Kerry Huynh, Benefits and Workers' Comp Coordinator, know immediately. Since you are the best judge of your physical abilities, you must take responsibility to stay within the physical restrictions set by your treating physician.

The following is a detailed description of your TWA. Please review this information carefully before accepting or rejecting this notice of assignment. Failure to report to management or to return this notice, prior to the start date assigned below, will be viewed as a rejection and may affect your re-employment and rights to benefits.
