

Holiday Décor Tips

DIY Tree or Garland

Whether it's in your cubicle or your hallway at home sticky notes, pictures or holiday cards are a totally easy way to add holiday cheer to a small space or blank wall.

Turn Cookie Cutters into Ornaments

A quick ribbon-wrap turns holiday baking supplies into trendy tree baubles. Put a tiny bit of tape (instead of glue) at the beginning and end points and you'll be able to reuse the set to shape cookies next year.

Use Fir Trimmings Instead of Purchasing a Wreath

Don't splurge on a wreath that gets displayed just once a year. Make your own using the trimmings fresh from your tree fanned out as a star. Dress it up with red holly, bows or lights.

Decorate with Leftover Ornaments

Here's a pretty hack that involves minimal effort: Simply organize your orbs in a glass vase or better yet use some fishing line to hang ornaments from the ceiling.
